

Individual Rankings - Regular Season 2011

After Week #7 - Updated February 25, 2011

Based on Average of all teams participating on

The following shows your average of all your rated handicaps for all the Ski Challenge teams that you are on. We take your rated handicap from each team you are on. The rated handicap drops your best and worst handicap and then averages out the remaining handicaps. Once we get this number for each of your teams, we average them together. This is your overall rated average. The number next to your rated average handicap is the number of teams you are participating on.
